#### **DETAILED ACTION**

## Claim Rejections - 35 USC § 103

- 1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
  - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 2. Claims 12-19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Metz-Stavenagen et al. (Metz).

Metz discloses an anchoring element comprising:

- A screw 100 with a rough surface;
- A receiving portion 108;
- A head 106;
- An element the exerts pressure on a rod;
- The head and screw are separate parts;
- The head has a slit 122 and a bore 124;
- And the head is configured to mate with the screw.

Metz lacks the use of a spherical head and a shank. It would have been an obvious matter of design choice to have modified Metz and make the head spherical and the top par of the screw a shank, since applicant has not disclosed that having the spherical head or the shank solves any stated problem or is for any particular purpose and it appears that the head and screw of Metz would perform equally well.

Application/Control Number: 10/040,703

Art Unit: 3732

3. Claims 20 and 22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Metz in view of Brumfield et al.

It is well known in the art that screws and bolts are interchangeable, and it is taught by Brumfield. It would have been obvious to one of ordinary skill in the art at the time of the invention to provide Metz with a bolt instead of a screw as a matter of design choice. It would further been obvious to have the head mate with the shape of the bolt.

## Allowable Subject Matter

- 4. Claim 21 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
- 5. The following is a statement of reasons for the indication of allowable subject matter: None of the prior art indicates a split ring head that has an internal thread for accepting a shank.

### Response to Arguments

6. Applicant's arguments filed 11-3-03 have been fully considered but they are not persuasive. The Applicant states that the element 106 is not a head of a screw. The element is as much a head as element 15 of the instant application. The head of the application's screw is element 16. And as reading it as such the rejections are deemed to be proper.

#### Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the

THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory

period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to D. Austin Bonderer whose telephone number is 703.306.5911. The examiner can normally be reached on Monday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kevin P Shaver can be reached on 703.308.2582. The fax phone number for the organization where this application or proceeding is assigned is 703.872.9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703.308.0873.
